STOP WEIGHING.

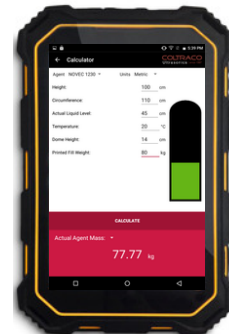

Check cylinder contents with
these two the Safesite way.

Portalevel® MAX

Portasteel® Calculator

BETTER

No need to shutdown, dismantle and weigh the system. Simply test level, convert to weight + record results.

FASTER

Competent users can test the average 100lb CO₂ cylinder in 30 seconds compared to 15 minutes with 2 people weighing.

CHEAPER

No discharge or leakage risk. Cut time. Save labor costs. Accurate to 1/8".
