TO WHOM IT MAY CONCERN

I am writing on behalf of Khayber Fire and Security Systems WLL, Bahrain, where I serve as the Sales & Technical Engineer responsible for inspecting fire suppression systems. Our recent experience with Coltraco Ultrasonics' **Portalevel® MAX PLUS** (portable ultrasonic liquid level indicator for cylinder testing, without weighing) and the **Portasteele® CALCULATOR** (liquid level to agent weight calculator & data recorder) has been exceptionally positive, prompting me to share our success story.

One recent notable success story involves the testing of FM200 cylinders on the US Navy vessels Moulthrope and Glen Harris, as well as the UK Navy Ship HMS Lancaster.

In the case of the Moulthrope ship, which has three rooms protected with FM200 fire suppression systems, we faced the challenge of cylinders without standard pressure gauges in the EDG Room. Instead of physically weighing the cylinders, we used the ABS TYPE APPROVED Portalevel® MAX PLUS to estimate the agent's liquid level. Thereafter, we used the Portasteele® CALCULATOR to accurately calculate the actual agent's weight in the two FM200 cylinders and we were able to verify and compare the actual agent weight against the agent weight printed on the FM200 cylinders.

Similarly, for the UK Navy Ship HMS Lancaster, we successfully estimated the liquid levels in 28 fire extinguishers using the Portalevel® MAX PLUS, showcasing the accuracy and ease-of-use of the Coltraco Ultrasonics' products.

Our positive experiences with Coltraco Ultrasonics' products and their exceptional technical support have led us to highly recommend and introduce the Portalevel® MAX PLUS and Portasteele® CALCULATOR to our customers. These instruments have become invaluable for liquid level measurements in fire suppression cylinders, and their reliability and accuracy are evident from our successful applications on naval vessels.

Coltraco Ultrasonics' equipment are already onboard 20% of the World's fleet, supporting shipping companies and navies, worldwide.

Yours sincerely,

Shinu K R

Sales Manager
